

MOBILE & STATIC VEHICLE SURVEILLANCE

MAY 14, 2024

8AM TO 5PM

Prerequisites:

Students must be full-time, commissioned peace officers working for a law enforcement agency.

Required:

An unmarked law enforcement vehicle.

Course Description:

Successful traditional unmarked vehicle surveillance is often overlooked in Law Enforcement and new Detectives/Officers responsible for vehicle surveillance are often faced with “thinking outside of the box” and adapting to changing situations with little or no guidance in these operations. This course is designed to give attendees the tools and techniques to be successful in their vehicle surveillance and incorporate working with their own units or groups. Topics covered in the classroom portion of the course will be:

- Vehicle, equipment, and Detective needs for successful vehicle surveillance.
- What is the overall goal and purpose of each vehicle surveillance operation?
- Commonly used terminology and radio traffic during vehicle surveillance.
- Ways to make your unmarked law enforcement vehicle not stand out.
- Mobile Vehicle Surveillance Techniques.
- Static Vehicle Surveillance Techniques.

This first half of this course will be a classroom presentation setting with the second half of the day being actual in field vehicle surveillance scenarios. Attendees will be broken into groups within their agency or specialized unit to work closer together in the practical field scenarios.

Location:

Kingman Police Department

2730 East Andy Devine Avenue

Kingman, Arizona 86401

Who Should Attend:

Anyone assigned to a unit or detail which would require an unmarked vehicular surveillance.

Education Hours:

This course may qualify for training credit from your agency.

Dress Code:

Daily wear (plain clothes) - **NO Uniforms**

Lodging:

Students are responsible for their own hotel and per diem costs. Hotel Information will be included with confirmation email.

Registration Limitations:

Each agency is limited to **FIVE** approved attendees. Substitutions for confirmed attendees are NOT permitted.
